| Assessment Date  | 13 <sup>th</sup> February 2025  |
| 'Pupil voice' on RE                                      | <p>'I love RE as it helps me to understand more about people locally and around the world'</p> <p>'I liked it when someone came in to explain their views, it was good to learn about their experience'</p> <p>'I enjoyed looking at religious sayings and seeing what messages there could be'</p> <p>The students I spoke to were very positive about their learning and the impact it has on them. They were clearly engaged in the subject and very happy to talk about it.</p> |
| Summative comment about RE in the school                 | <p>RE is at the centre of the curriculum. In a very diverse area the school makes all welcome and has created an atmosphere of learning about and from the different people nearby. The subject is clearly valued by senior leaders, subject teachers and students. SLT clearly views RE as more than just a subject. The core values of the school radiate from their RE.</p>  |
| Any other comments about the school and the REQM process | <p>The excellent RE curriculum team led by Anisa Khanom are supportive of each other and the students and it is clear that they value the caring environment. The SLT and RE dept are very active in outreach work both locally and nationally.</p> <p>The experience was very enjoyable for me as an assessor as RE is clearly valued by all in the school and community.</p>  |
