

Amidst the Coronavirus outbreak and rapidly changing government guidance, it is important that we consider our most vulnerable families in light of possible school closures and further service disruptions in the very near future. To support you to provide essential information, advice and guidance to your families, we have provided a short list of locally based services, community organisations, helplines and social media platforms that can be disseminated to children, young people and families via your school newsletters and other modes of communication.

In addition to this, a local COVID-19 Newham Support Group has been set up as a community based response to supporting the community through this pandemic -

<https://www.facebook.com/groups/202303704194767/>

Please continue to promote the Newham Local Offer to your families ([www.families.newham.gov.uk](http://www.families.newham.gov.uk)) as the main directory for Newham based services and organisations.

Please feel free to contact the Early Help Partnership Team via email, [earlyhelppartnershipteam@newham.gov.uk](mailto:earlyhelppartnershipteam@newham.gov.uk) for further advice and guidance.
